

Simplify Event Management with Building Automation

Connect Brightly Event Manager to nearly any building automation system with Connect Automation to simplify and streamline event and facility management. This Brightly integration reduces the burdens of manual oversight and operation of resources needed and used for events.

Key Benefits

Automate building controls

Centralize and automate control of all aspects of an event space – such as temperature, lighting, and security — from a single interface

Optimize energy resources

Ensure HVAC and lighting systems are only active when needed to reduce energy usage and reduce costs

Enhance event experience

Ensure and maintain optimal comfort levels for attendees throughout the event without interruption

Product Features

- Streamlines BAS programming for special schedules from 5-15 minutes per event to zero
- Pre-start and pre-stop capabilities enable HVAC to start early and coast to end of event
- Single interface allows for last-minute overrides, changes, and cancellations across multiple BAS providers
- Provides real-time status updates of each Event Manager location and BAS link
- Automation services include set-up and breakdown time from Event Manager
- Integrates with any BAS systems utilizing BACnet/IP devices or Niagara
- Accessible on any iPhone, Android, or web device

About Brightly Software

Brightly Software, a Siemens company, enables organizations to manage the entire lifecycle of their assets, facilities and infrastructure. As the global leader in intelligent asset management solutions for more than 25 years, Brightly's sophisticated cloud-based platform is expertly designed to improve capital planning through smarter, data-driven decision making, empower technicians to predict, prioritize and manage preventative maintenance activities, and support organizations to achieve sustainability, compliance and efficiency goals. Combined with award-winning training, legendary support and managed services, more than 12,000 clients worldwide depend on Brightly to optimize their teams, operations and strategic planning initiatives.
