

TheWorxHub

TheWorxHub Implementation

Implementing TheWorxHub empowers healthcare facilities to navigate the complexities of managing their assets and ensuring compliance with confidence and efficiency. The Brightly team of experts will guide your setup with an industry-leading implementation methodology. With tailored best practices for acute care or senior living facilities and comprehensive training, our team has the knowledge and skills needed to maximize TheWorxHub's potential from day one.

Brightly has developed flexible implementation options that are designed to align perfectly with your facility's unique asset management, compliance, and patient or resident experience goals, guaranteeing an optimized solution that drives your strategic objectives forward.

Your Implementation Options

We understand that every facility has unique needs when adopting new technology. That's why TheWorxHub offers a tiered implementation approach, ensuring we provide the right level of support and configuration to seamlessly integrate this powerful solution into your operations. From foundational setups to consultative guidance, there's an option designed to meet your specific requirements.

Quick Start

Fastest path, lightest touch

Expert

A managed and predictable rollout

Enterprise

Detailed consultative planning and guidance

Choose the Approach that is Right for You

For clients with experience in deploying comparable solutions and with straight forward use cases, we offer **Quick Start**. This option gives you the flexibility to set your own implementation pace and delivers all the essential functionality your team needs. We initiate this process with specialized training modules designed to ensure familiarity with TheWorxHub platform.

Our **Expert and Enterprise** implementation options offer a distinct advantage for organizations aiming to unlock the full potential of their new software and accelerate their time to value. Designed to gather information about your organization and processes and apply them in

implementation, these comprehensive packages leverage a proven 5-stage process that provides consultative guidance from planning through deployment. Our seasoned professional services team works closely with you to precisely align TheWorxHub's capabilities with your unique organizational goals and processes, ultimately ensuring a seamless transition, optimized adoption, and maximized return on your investment.

Quick Start

Choose QuickStart to go-live quickly. Perfect for organizations with minimal complexity and team members who can actively participate.

Expert

A fully managed, predictable rollout. Brightly guides you through a structured configuration on a defined timeline.

Enterprise

For clients navigating extensive operational complexity, the Enterprise implementation starts with a comprehensive project plan and delivers sophisticated workflows and alignment.
